Re: Pharmaceutical Manufacturing Company Disclosure of Gifts

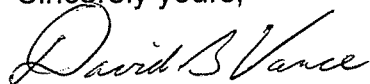

Dear Ms. Wiberg:

In connection with the obligations set forth in Chapter 151 of the Minnesota Pharmacy, Wholesale Drug Distribution Licensing Act, I am forwarding the Minnesota Gift Marketing Disclosure report for Novogyne Pharmaceuticals for the reporting period January 1, 2007 to December 31, 2007. Novogyne Pharmaceuticals is a joint venture between Noven Pharmaceuticals, Inc. and Novartis Pharmaceuticals Corporation. Both Noven and Novartis file separately for their other marketing operations.

Novogyne has a sales force of less than 130 with one sales representative assigned to cover Minnesota during the stated reporting period. There were no honoraria, reimbursement, and compensation exceeding \$100 paid to practitioners in Minnesota for this reporting period.

Please let us know if you have any questions about our submission or recommendations on other ways to submit when we have no reportable activity.

Sincerely yours,

David B. Vance, JD
