Dear Sir or Madam:

With the submission of this letter, Schering Plough Corporation reports certain payments in accordance with the Minnesota Statute 151.47(f). Schering-Plough Corporation ("Schering-Plough") reports on behalf of Schering Corporation, our human pharmaceutical business, as well as Schering-Plough Animal Health and Intervet, Schering-Plough's animal health businesses.

Schering-Plough reserves the right to modify the report based on changed circumstances, including, but not limited to, any additional guidance issued by Minnesota. The certification provided by Schering-Plough in the report is made subject to this limitation as well as the limitations detailed below.

Schering-Plough's systems do not currently track compensation for professional or consulting services rendered by practitioners engaged in clinical trials or other genuine research projects for Schering-Plough Research Institute, the research division of Schering Corporation. Furthermore, Schering Corporation's systems do not currently track expense reimbursements to Minnesota practitioners providing professional or consulting services in an identifiable form. Therefore, no reportable expense reimbursements to Minnesota practitioners are able to be included in the report. An exception to this general caveat is Intervet, an animal health division which is able to track expense reimbursements for Minnesota practitioners, and such reimbursements are included in the report. Schering is in the process of updating our system capabilities in this regard and it is anticipated that we will be able to provide the aforementioned data in filings covering future reporting periods.

If you should have any questions regarding the information in this letter, please call me directly at 908-298-2384.

Sincerely,

Williams L. Aprea  
Senior Counsel
